

POWERBank

Lithium Ion & Nickel Metal Hydride Complete External Power Solution for Digital Cameras

What's in the Package?

BATTERY PACK

Available in Lithium Ion and Nickel Metal Hydride rechargeable battery technology, the Maha POWERBank offers an ultra long runtime for digital cameras.

Another useful feature on the Maha POWERBank is its battery gauge which displays the amount of power left in the battery. At a press of a button, users can immediately know if recharge is necessary.

QUICK CHARGER

The total solution includes a four-hour quick charger. Simply plug it in any compatible AC outlets.

CAR KIT

With the car kit which includes a cigarette lighter adapter, the battery pack can be charged in a car, boat, or with any 12V DC power sources.

UNIVERSAL CABLE

Using a modular design, there is only one cable. With a variety of modular connectors available, the Maha POWERBank can be made instantly compatible with a wide array of digital cameras.

CARRYING CASE

The carrying case features a belt-clip
